Public Library Statistics 2015/16 - Executive Summary

The State Library of NSW collects public library statistics in support of the Library Council of NSW's duty to make careful inquiry into the administration and management of local libraries provided by local authorities which have adopted the Library Act 1939 (s5 Library Act 1939).

All NSW local government authorities (councils) have adopted the *Library Act 1939*, and all but one provide public library services to their communities.

In 2015/16 there were 101 library services, prior to council mergers in May 2016, including stand-alone libraries and regional or joint libraries where up to 13 local councils have entered into a written agreement to provide combined services.

In addition to the 101 central library buildings there were 267 branch libraries. There were also 65 deposit stations/other service outlets, 29 administration/specialist service points and 20 mobile libraries operated by the library services, providing services to remote and isolated communities (figures as at June 2016).

NSW public library statistical measures have been gathered, collated and published by the State Library of New South Wales since 1973. The annual public library financial and statistical data, along with our research into services and trends, represents a significant body of information that assists the development of policy and practice advice.

This issue of *Public Library Statistics* has been produced from the reports provided to the State Library of New South Wales by local councils for the period July 2015 to June 2016.

A comparison of a number of measures collected over the last 40 years demonstrates the ongoing evolution of local public library services in New South Wales. A selection of graphs and tables demonstrating these developments follows. Some observations on NSW public library trends include:

High usage of facilities and collections:

- Physical visits to public libraries were 34.8 million in 2015/16.

- Loans of collection items were 42.1 million in 2015/16.

Internet use and online services have experienced extremely high growth over a relatively short period:

- Virtual visits to public library websites grew by almost 2 million to 11 million between 2012/13 and 2015/16.

- Internet bookings in public libraries have increased from 5.4 million in 2012/13 to 8.4 million sessions in 2015/16. WiFi sessions account for most of this growth.

- While ebook loans are not a high proportion of the 42.1 million above, they have increased by 71% from 2012/13 to 2015/16 (861,377 ebook loans in 2015/16).

Detailed tables comparing many measures follow. Please contact the State Library for further information.

2015/16	3,496,069	5,813,199	9,309,268

There are different reporting methods used for calculating Wi-Fi sessions. Figures marked with * in Table 20, pages 84-85 have been provided by the State Library's NSW.net service.

Based on the State Library's NSW.net data it is estimated that Wi-Fi sessions for library services total approximately 6.4 million.

2009/10	13,715,862
2014/15	13,339,235
2015/16	13,149,354

In addition to books, library materials include DVDs, talking books, magazines, ebooks, CDs, newspapers, maps, plans, pictures and manuscripts.

AGE OF LIBRARY MATERIALS
	1995/96*	2005/06	2009/10**	2014/15	2015/16
	%	%	%	%	%
less than 5 yrs old	44.85	50.23	46.64	50.79	50.71
5 to 10 years old	35.87	43.08	26.11	25.96	27.04
greater than 10 yrs old	19.28	6.69	27.25	23.25	22.25

How current are collections in local libraries?

In 1995/96, 80.72% were less than 10.5 years old and 44.85% less than 5.5 years old.
In 2005/06, 93.31% were less than 10 years old and 50.23% less than five years old.
In 2009/10, 72.75% were less than 10 years old and 46.64% less than five years old.
In 2014/15, 76.75% were less than 10 years old and 50.79% less than five years old.
In 2015/16, 77.75% were less than 10 years old and 50.71% less than five years old.

Data on the age of collection from 1995/96 - 2007/08 was calculated by comparing the total number of items purchased over the last 5 years and the last 10 years with the total current stock.

**From 2008/09 the methodology used to calculate the age of material was revised to improve accuracy of the data collected in this area. The data presented in Age of Library Material is now based on the number of items purchased in the last 5 years and the last 10 years according to the date the material was acquired by the library as reported by the library's Library Management System.

Significant changes between 2008/09 and previous years can be attributed to these changes in methodology and the availability of more accurate data.

* Notes: The 1995/96 pie chart uses 5.5 and 10.5 years in the calculations as the extraordinary six month period of January–June 1994 had to be factored into the equations when local government changed from a calendar to a fiscal year.

The pie charts were calculated from the information provided by the libraries and not all libraries reported age of bookstock.

LIBRARY MATERIALS BORROWED
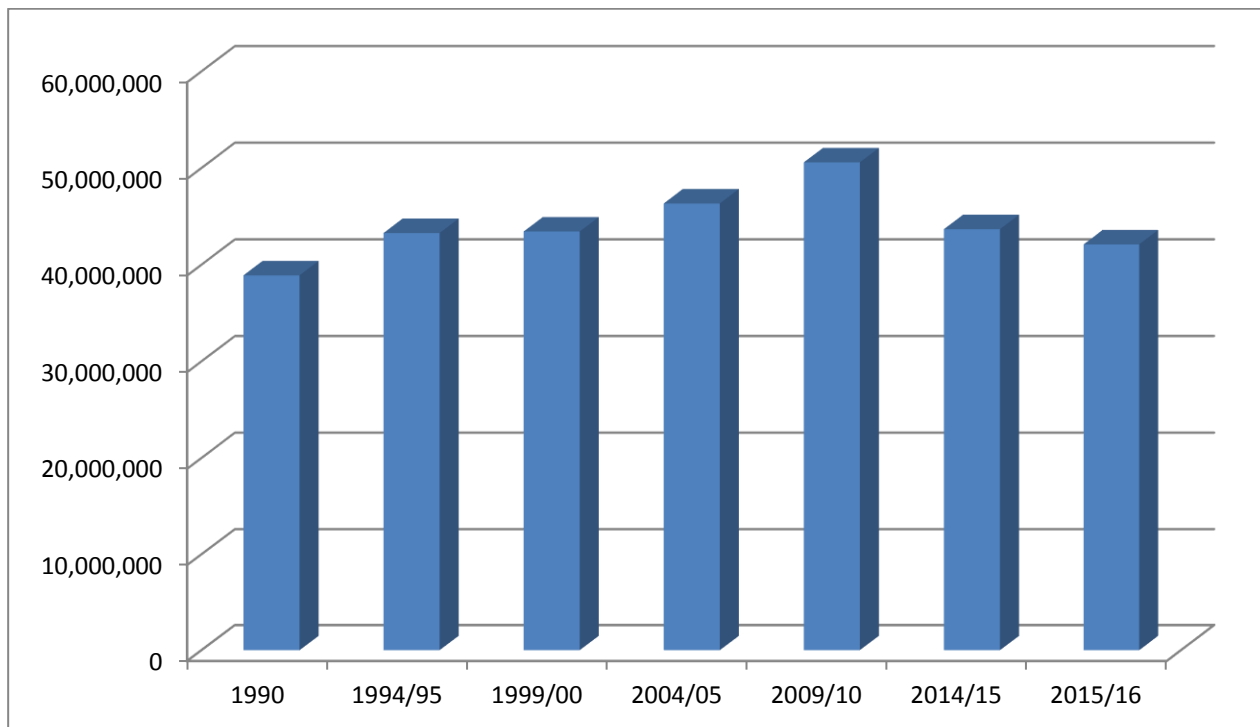

Year	Items
1990	38,895,305
1994/95	43,278,398
1999/00	43,432,152
2004/05	46,335,942
2009/10	50,585,814
2014/15	43,676,357
2015/16	42,098,596

Materials available on loan across the State include books, CDs, magazines, videos, DVDs, large print and audio books, toys, etc. These resources inform, educate, inspire and amuse over three million people every year.

Notes to Public Library Statistics

Disclaimer

The data published in *Public Library Statistics* is provided by New South Wales local councils and their public libraries. Data definitions are shared with all the councils prior to the annual collection to promote consistency of data submitted.

The State Library runs edit checks over the data submitted and queries results with councils where necessary. However it is acknowledged that there may be inconsistencies from year to year.

This report of statistical measures for public libraries in New South Wales has been produced from the 2015/16 statistical return reports provided to the State Library by local councils. It covers the period July 2015 to June 2016.

The 2015/16 statistics are based on data submitted as at 30 June 2016 with per capita calculation based on ABS population figures for June 2015.

Public Library Statistics has been published since 1973, providing significant historic time lines for comparative purposes.

Tables: Explanatory Notes

Some of the tables relate to a council, (eg. annual expenditure), whilst others relate to the library service, whether that be a stand alone library, or a library service operated by more than one council.

Table 1 Expenditure and Subsidy & 1a Voted Expenditure, Subsidy and Local Priority Grant

The total expenditure figures provided by councils include monies from all sources spent on the library service for that year. This figure, therefore, includes State Library Subsidies and Grants where applicable, as well as the contribution made by local government. The total expenditure figure is the gross expenditure, not the net expenditure.

Operating Expenditure per Capita is reported to the NSW Office of Local Government as part of the Comparative Information on NSW Local Government Councils.

Councils report their financial data to the State Library of NSW via the Statement of Library Operations form.

The expenditure figure for July 2016-June 2017 (Table 1a) represents the total **voted** by councils for library services in this period. This figure may vary when the actual expenditure figures for this period are known. The Subsidy, Local Priority Grant, Collaboration and Merger figures in this table do not include funds from the State Library Grant programs. Details of the grant funds allocated in each year are listed in the *Annual Report of the Library Council of New South Wales*.
Website: http://www.sl.nsw.gov.au/about-library-publications/annual-reports

All NSW councils which provide a library service in accordance with the Library Act 1939 receive a Subsidy Adjustment payment in support of their library. Councils allocate at least 30% of their Subsidy Adjustment payment to a library project, termed their "Local Priority Grant". These payments are reported in tables 1 and 1a as follows: "Subsidy" comprises the per capita prescribed amount plus the portion of the Subsidy Adjustment which is not allocated to the Local Priority Grant. The "Local Priority Grant" is the amount nominated by each council for its Local Priority Grant project.

Table 1d Expenditure on Library Material: By Library Service
This table lists the breakdown of expenditure on library material.

Table 2e Circulation by Council
This table lists circulation and circulation per capita by council. This data was previously reported by the NSW Office of Local Government and published in the Comparative Information on NSW Local Government Councils.

Table 4a Non-Resident Members by Council
This table lists non-resident members by council. This figure is used by the NSW Local Government Grants Commission as part of the Library Services index calculation.

Table 5 Service Points

A *Service Point* refers to a library building, not the number of information or service desks within a library building.

A *Central Library* is either a single site library service point, or the operational centre and central service point of a multiple site library service; is operated by permanent paid library staff; is usually where the principal library collections are housed; processing is centralised; AND where the public have direct access to a full range of library services and facilities. Unless otherwise specified the main branch library of the Administering Council of a Regional Library service is taken as the Central Library.

An *Administration Headquarters* is the operational centre for a multiple site library service that operates only or mainly for administrative functions and does not provide a full range of public library services. This is not counted as the Central Library but as an *Administration Specialist Service Point.*

A *Branch Library* is a *service point* that is an auxiliary facility with separate quarters from the Central Library, a permanent collection of books, permanent paid staff present during all hours of opening, offers a broad range of public library services and a regular schedule of public service hours.

A *Specialist Service Point* is a facility with public access that does not offer a broad range of public library services, but focuses on one aspect of public library service, eg. children's, genealogy. It is operated by permanent paid library staff present during all hours of opening. This is not counted as a Branch Library but as a *Specialist Service Point*.

Public Service Outlets - Deposit Station – a service point not operated by library staff, usually open limited hours and stocked with a small collection of books and other library materials that are changed periodically. Computer access to the library's database may also be provided. Bulk loans to institutions eg. Nursing homes, retirement villages, schools are not Deposit Stations.

Public Service Outlets – Other – These service points may be operated by paid library staff but are open less than ten hours a week.

A *Joint Use Facility* or *Area* is open to the public, has a permanent paid staff and is managed by a formal cooperative agreement between the council and another institution (usually educational, eg. School or TAFE). A *Joint Use Facility* normally functions as a branch library, eg. a school/public library.

A *Mobile Library* is a vehicle equipped and operated by paid library staff to provide a mobile branch library service.

Table 5 Hours of Opening

Hours of opening count the number of hours a library is open to the community.
Hours of opening are not counted twice for any service point that covers more than one function.
For mobile libraries only operating hours, not time spent traveling each week, are counted.

Table 10c Expenditure on Library Material Per Capita

Prior to 2009/10 this table excluded licensed access to electronic resources. See table 1d for breakdown on expenditure on library material.

Table 11b Average Cost of Library Material

The cost has been calculated by dividing the total expenditure on library materials by the number of acquisitions. The resultant figure is distorted by each library's expenditure on periodicals and the number of donations counted as acquisitions.

Table 11c Age of Library Material

From 2008/09 the methodology used to calculate the age of material was revised to improve accuracy of the data collected in this area. The data presented in Age of Library Material is now based on the number of items purchased in the last 5 years and the last 10 years according to the date the material was acquired by the library as reported by the library's Library Management System.

In previous years the age has been calculated by comparing the total number of items purchased over the last 5 years and the last 10 years with the total current stock.

Table 16b Turnover of Stock

The turnover is calculated by dividing circulation by the total lending stock.

Table 17b Total Qualified Staff

Prior to 1992 total qualified staff referred to the number of positions available for qualified librarians. However, from 1993 this table refers to the total number of library staff with professional librarianship qualifications, regardless of the position they occupy.

Categories

Up to 1994/95 library services were categorised as 'metropolitan' or 'country' in line with the categories assigned to local authorities by the NSW Local Government Grants Commission. This categorisation was based on two variables: geographic location and size of urban centre. For further details see the introduction to the 1994/95 *Public Library Statistics*.

By 1995/96 the need for comparative analysis of Australian local governments on a national basis had been recognised and the **Australian Classification of Local Governments** was adopted by the NSW Local Government Grants Commission. The national system uses population, population density, population growth, and location to identify twenty-two categories of local government in Australia as detailed below. This classification system has been used in *Public Library Statistics* from 1995/96.

Australian Classification of Local Governments

Step 1	Step 2	Step 3		Alpha	Numeric
	Capital City (CC)	Not applicable		**UCC**	1

Note: For 'Rural Agricultural Very Large' (RAV), 'Rural Remote Large' (RTL) and 'Rural Significant Growth' (RSG), 20,000 is the upper limit because beyond this number all local governments are deemed 'Urban'.

The *Expenditure and Subsidy* table on **pages 2-4** uses the Australian Classification categories. For the purposes of this report the council statistics in the *Expenditure and Subsidy by Councils* table on **page 9** are divided into the seven main categories of Capital City (CC), Urban Metropolitan Developed (D) Urban Regional Town/City (R), Urban Fringe (F), Rural Significant Growth (SG), Rural Agricultural (A), and Rural Remote (T).

TABLE 11c - AGE OF LIBRARY MATERIAL 2015/16

In 2008/09 the methodology used to calculate the age of material was revised to improve accuracy of the data collected in this area. The data presented in Age of Library Material is now based on the number of items purchased in the last 5 years and the last 10 years according to the date the material was acquired by the library as reported by the library's Library Management System.

In previous years the age has been calculated by comparing the total number of items purchased over the last 5 years and the last 10 years with the total current stock. See note on page xviii

A calculation of the percentage of library material purchased during:
